---

\*\*\* **Note:**

All of the -el words on this page may have the -ed or -ing added without doubling the l as shown in American English. British English always doubles the letter l in these situations. AVKO prefers following the British style. However, even an American should be consistent and either always double the -l when adding -ed or -ing to these -el words or never.

	85th day	86th day	87th day	88th day
1.	<b>helpful</b>	helpfully	thankful	thankfully
